DESCRIPTION	A hugely entertaining and exciting dinosaur adventure story aimed at 7-11 year old children. Delightfully illustrated throughout, it follows the exploits of two children and their friend, the inventor Professor P, his robot Brains and super intelligent, super computer Floppy, back in time to the Jurassic world of the dinosaurs. At the end of the book there is a fun filled, illustrated guide to the top ten Jurassic dinosaurs. The book is the second in Davidson's prehistoric time travel trilogy, his sequel to the popular <i>Professor P and the Jurassic Coast</i> .

### An Amazing Dinosaur Adventure!

Peter and Tara are in for a surprise when an unexpected dinosaur egg mysteriously arrives. Only their friend Professor P and his amazing inventions can help them solve the mystery of the strange egg and save the day!

*Professor P and the Jurassic Island* is a fantastic adventure story that takes you back in time to the Jurassic world of the dinosaurs.

**Includes a fun filled illustrated guide to the top ten Jurassic dinosaurs.**
